D.7.3.a. Dissemination activities report & material (List and copies of conference/journal papers, Dissemination events and/or workshops, Results of participation in clustering events)

1 Introduction

The mEducator Work Package 7 Awareness and Dissemination is running throughout the duration of the project, from month 1 to month 36 and involves 4 Deliverables:

D.7.1. Core documentation, e.g. teacher/student guides, re-purposing guide, technical manuals, etc.

D.7.2. Content in project websites, wiki and blog

D.7.3.(a and b) Dissemination activities report & material (list and copies of conference/journal papers, Dissemination events and/or workshops, Results of participation in clustering events)

The first deliverable of this Work package is the present deliverable, D.7.3.a., which is of type Report and Product, involving a List of the dissemination activities carried out from May 2009 to April 2011, as well as the products, i.e. the dissemination material. This is an interim version of the final Deliverable 7.3.b. to be submitted at the end of the project period, in April 2012, which will contain all the dissemination material of the project.

2 Dissemination activities

The main purpose of dissemination activities of mEducator at this stage of the project were:

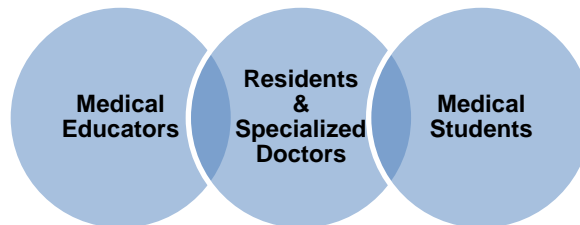

- To compile good practice for inviting new partners and include new content
- To record project activities and progress for interested parties through project websites, blog, wiki etc.
- To identify communities and events relevant to the project and organize clustering events
- To disseminate project findings to international professional medical societies, students associations and other bodies
- To publish articles related to the project in relevant journals, conferences and newsletters

2.1 Target audience

The target user audience of mEducator, as defined in the DoW, includes 3 types of users:

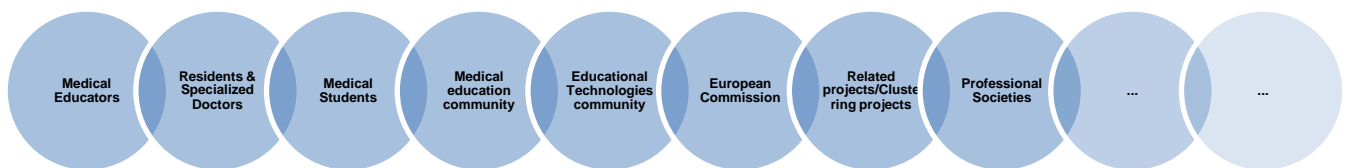

- a. Medical educators
- b. Medical Students

c. Residents & Specialized Doctors

Target user audience of mEducator

The dissemination activities planned or carried out already are not limited to activities addressed to target user groups, they are rather encompassing many different types of audience such as the communities of medical education and of educational technologies, the clustering projects and the relevant programmes of the European Commission.

Target audience of mEducator dissemination activities

2.2 **Dissemination tools/instruments**

During the initial phase of the project a first plan and strategy for dissemination and awareness was created. Based on that plan, dissemination activities have been carried out and reported regularly. These included:

- The creation of a website: www.meducator.net
- The establishment and use of online communication tools
- The design and reproduction of leaflets
- The design and reproduction of Posters
- The stimulation of Press Releases on developments and events
- The organisation of Events & Meetings
- The transmission of Newsletters
- The release of Public Deliverables
- The presentation of project's progress and achievements in Scientific Conferences and Publications

2.3 Website statistics for the period May2009 – April 2011

The website has increased its visibility, attracting visitors from more countries.

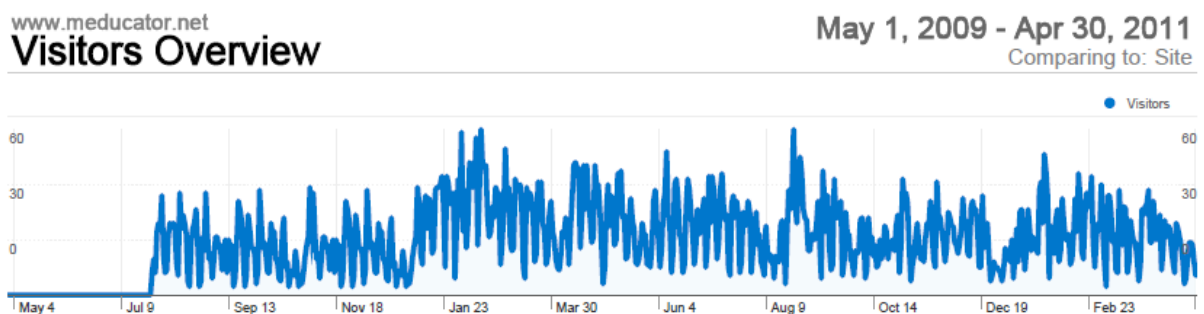

The following table demonstrates the project website statistics for the first 2 years of the project, from May 2009 to April 2011. (All the following refer to the main mEducator site; needless to say that the project’s visibility is also increased due to individual mEducator dedicated or related sites at individual partner institutions).

	Website hits (total page views)	Unique Visitors	Average Time on Site	Returning Visitors
Total	86652	17860	05m:04s	62.27%

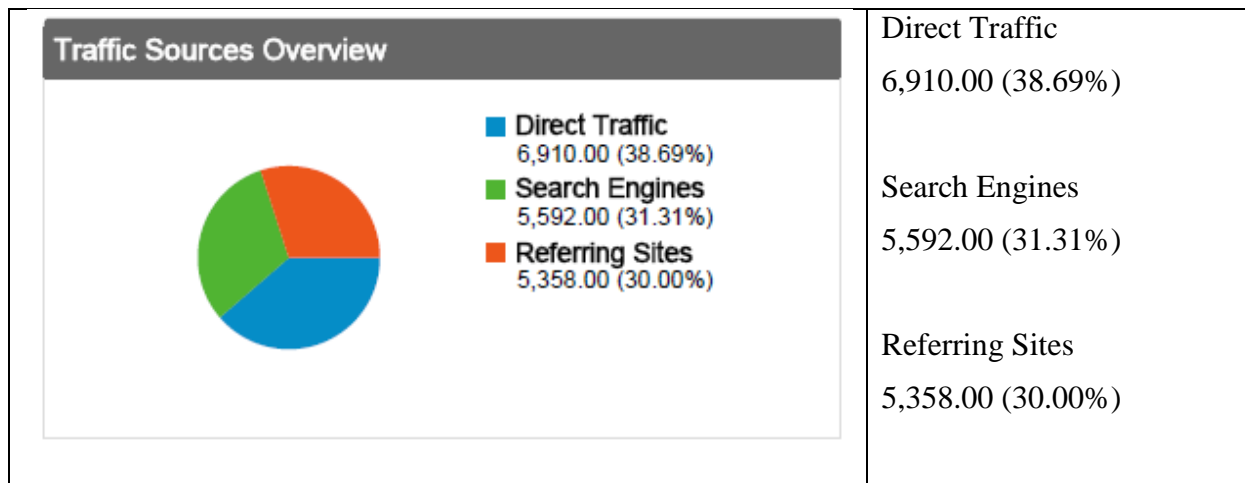

Year	Website hits (total page views)	Unique Visitors	Average Time on Site	Returning Visitors	Pages/Visit
2009- 2010*	39939	7176	06m:07s	64.86%	5.57
2010- 2011**	46713	10684	04m:22s	60.53%	4.37

* May 1,2009 – April 30, 2010

** May 1,2010 – April 30, 2011

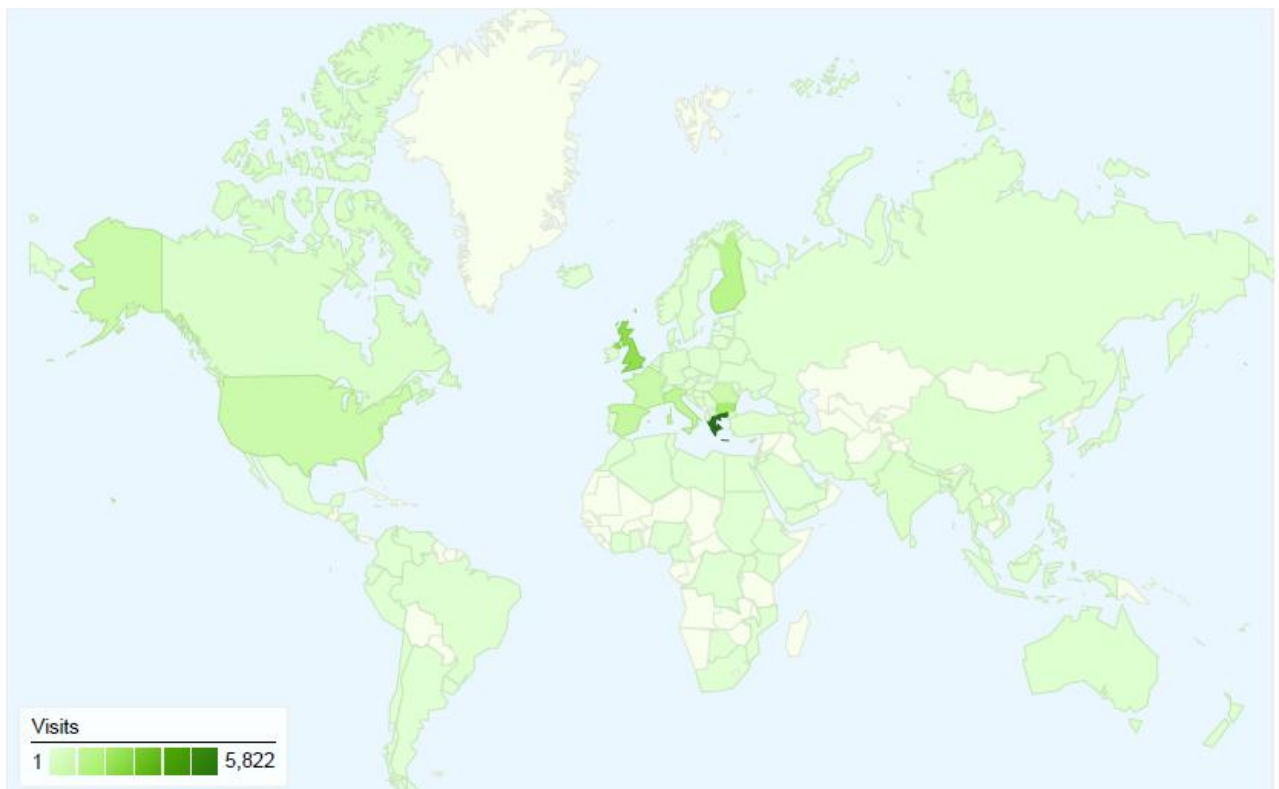

D.7.3.a. Dissemination activities report & material
(List and copies of conference/journal papers,
Dissemination events and/or workshops, Results of
participation in clustering events)

17,860 visits came from 117 countries/territories

2.4 Scientific Conferences

At a Scientific Level, the project contributors have held presentations at seminars, workshops and conferences, to disseminate recent findings and stimulating an ongoing interest for the project as a whole.

The conferences/symposia were:

- International Technology, Education and Development Conference (INTED) 2009, Valencia, Spain, March 9-11, 2009.
- PETRA2009: 2nd International Conference on Pervasive Technologies Related to Assistive Environments; a special track/workshop was organised: AHETA: Assistive Healthcare & Educational Technologies for special tArget groups”
- 7th International Conference on Information Communication Technologies in Health- ICICTH 2009
- Workshop organization and clustering activities: “Assistive Healthcare & Educational Technologies for Special Target Groups” within ICICTH 2009,
- IEEE International Symposium on Computer-Based Medical System, CBMS 2009; organised a mEducator sponsored special track/workshop on “Technology Enhanced Learning in Medical Education”.
- Medical Informatics Europe (MIE) Conference 2009
- AMEE (Association for Medical Education in Europe), Spain 2009
- Medicine 2.0 -, Canada 2009
- 4th Balkan Conference in Informatics BCI'2009
- PRO-VE 2009, IFIP Advances in Information and Communication Technology
- International Conference on Information Technology and Applications in Biomedicine, ITAB 2009
- HIMMS- World of Health IT Europe 2010, Annual Conference & Exposition
- Health 2.0, International Conference
- Medicon 2010, The XII Mediterranean Conference on Medical and Biological Engineering and Computing, Greece
- International Scientific Conference "Informatics in the Scientific Knowledge 2010' ISK Conference, Bulgaria
- 2nd International Conference on Virtual Patients and Medbiquitous Annual Conference, 2010
- 2nd International Conference on Games and Virtual Worlds for Serious Applications, VS Games 2010, Braga, Portugal, March 25-26

- 19th Annual EDEN Conference 2010 (European Distance and E-Learning Network), Valencia, Spain, June 9-12
- ACM Fun & Games conference 2010, Leuven, Belgium, September 15-17
- 29th Annual Greek National Conference of Orthopedics and Trauma, 2010
- AMEE (Association for Medical Education in Europe), Glasgow, 2010
- 13th International Congress on Medical Informatics (Medinfo 2010) , Cape Town, 2010
- 6th International Conference of Aerospace Medicine, Thessaloniki, Greece, 2010
- The 23rd IEEE International Symposium on Computer Based Medical Systems (CBMS 2010), Perth, Australia, 2010; organised a mEducator sponsored special track/workshop on “Technology Enhanced Learning in Medical Education”.
- 5th Conference of the Hellenic Society for Computational Biology and Bioinformatics, Alexandroupolis, Greece, 2010
- European Venus Forum, Larnaca, Cyprus, 2010
- Le 11e Congres International IP3S 2010 Internet et Pedagogie des Sciences de la Sante et du Sport, Bordeaux, France, 2010
- Medicine 2.0 , Nijmegen, Netherlands, 2010
- IT @ Networking Awards 2010 , Brussels, Belgium, 2010
- World Care Health Congress, Brussels, Belgium, 2010
- 2nd Panhellenic Conference: Incorporation and use of ICT at the educational process, Patras, Greece, 2010

2.5 Collaboration with other projects

The consortium during the period May 2009 – April 2011 has organized clustering meetings and events with related projects or relevant associations.

The main goal of mEducator was to collaborate with various teams and establish associations which would benefit the project and allow:

- a. the enrichment of available educational material and benefit from repurposing procedures
- b. the collaboration with communities of learning technologies as well as standardization bodies and working with state-of-the-art solutions and tools to allow repurposing and sharing of educational material
- c. the engagement of users groups to take part in the evaluation process of mEducator solutions.

In the following section a list of (currently or in the process of being) associated projects is provided.

- Aspect project. Adopting Standards and Specifications for Educational Content (<http://www.aspect-project.org>)

- Porsche project. Pathways for Open Resource Sharing through Convergence in Healthcare Education (PORSCHÉ), (<http://www.medev.ac.uk/ourwork/oe/PORSCHÉ>)
- Mededworld – AAMC MedEdWorld, Association for Medical Education in Europe (<http://www.mededworld.org/>)
- MedEdPORTAL (www.aamc.org/mededportal)
- The GEROM project: Joint development of online gerontological master degree programme (<http://www.gerom.net>)
- The Tempus CRH-BME project – Curricula Reformation and Harmonisation in the field of Biomedical Engineering (<http://www.crhbme.upatras.gr>)
- The Virtual Physiological Human Network of Excellence – NoE
- The Ricordo Project – Interoperable Anatomy and Physiology, (<http://www.ricordo.eu>)
- iSeek - Empowering Individuals with the Knowledge to Act by Dynamically Targeting, Discovering, and Organizing Information, Powered by Vantage Labs, www.iSeek.com
- IMIA Social Media SIG, International Medical Informatics Association Social Media Working Group (SMWG) (<http://imiasocialmedia.wordpress.com>)
- BioMedLabs
- Webicina – Medicine in Social Media (<http://www.webicina.com>), ScienceRoll, (<http://www.scienceroll.com>)
- The CISMéF project: Catalog and Index of French-language Health Internet resources. A quality-controlled subject gateway. <http://www.chu-rouen.fr/cismef/>
- HON, Health On the Net Foundation, (<http://www.hon.ch>)
- The InterSTIS project <http://www.interstis.org/>
- United Health Groups (<http://www.unitedhealthgroup.com>)
- The TransMed programme – Translational Medicine (<http://www.helsinki.fi/transmed>)
- UROFilm (The Papageorgiou Hospital Urology Clinic’s educational film project, Greece)
- The Educational activities and internal projects of the Dental Association of Northern Greece

3 Table/List of dissemination activities & Dissemination material

The activities carried out during this period are in line with the mEducator main objectives. Dissemination activities are mentioned in the following table/list, while material is attached to this report in original paper copies and in digital form at the website: [the link has been removed for copyright reasons]

D.7.3.a. Dissemination activities report & material
(List and copies of conference/journal papers,
Dissemination events and/or workshops, Results of
participation in clustering events)
